RE: LETTER OF RECOMMENDATION FOR MUTINDA RICHARD KUTHITA - REG. NO. CCT/00086/023

This letter serves to recommend Mr. Mutinda Richard Kuthita, a Bachelor of Science student in Computer Science and Technology at Maseno University, who successfully completed his industrial attachment at Reliable Healthcare Masinga from 26th June 2026 to 27th August 2026.

Richard was attached to our Finance and Accounting Department under my direct supervision. During his time with us, he was involved in a wide range of ICT and data-related duties, including entering and verifying Local Purchase Orders and other records in the hospital management system, cleaning and organizing financial spreadsheets using Microsoft Excel, and applying tools such as Pivot Tables and Power Query to prepare data for analysis.

He also made a notable contribution to our reporting capability by developing and improving Power BI dashboards used to present financial information to management, and he assisted with the preparation of official documents and forms, downloading and organizing KRA payment history reports, and providing general IT support such as printer and workstation troubleshooting. He additionally participated, under proper supervision, in a generator fault diagnosis exercise and accompanied our team during a branch data collection exercise.

Throughout the attachment, Richard demonstrated a strong work ethic, attention to detail, and a genuine willingness to learn. He was reliable in handling repetitive and time-sensitive tasks, showed good judgment in seeking clarification when needed, and consistently observed the confidentiality expected when working with financial and healthcare-related information. He worked well with staff across departments and adapted comfortably to tasks ranging from data entry to analysis, documentation, and basic technical support.

I found Richard to be a diligent, teachable, and dependable young professional, and I have no hesitation in recommending him for future academic or professional opportunities. I am confident he will continue to grow into a competent and valuable asset in the field of Computer Science and Technology.

Should you require any further information regarding his conduct or performance, please do not hesitate to contact me.

Yours faithfully,

Mr. Reuben Ngui
